## **Information about Course Fees and Course Material**

**Modules with Full Tuition.** These include the Manuals (lessons) and the Course Manuals (exercises), tuition on all or most of the exercises, and guidance notes and masters where relevant after you have done the exercises. You can ask your tutor questions relevant to the course material at any time.

**Modules with Reduced Tuition.** You receive the same course material as above. You are asked to send in one or two exercises per module to your tutor, and you can ask for the guidance notes and masters where relevant after you have done the other exercises. You can also ask your tutor questions relevant to the course material at any time. The fees for modules with less tuition only apply to one to one tuition and not to online classes. They only apply to Module 2, part a) of Module 3 of the Foundation Course, and to Modules 6, 7 and 8 of the Diploma Course.

**Tuition periods.** Relating to One to One tuition, you are given 6 months' tuition period from the date of enrolment. If you have not completed the module you enrolled on within this time period, you will be charged a tuition extension fee for each exercise you have not completed if you wish to continue. You are given 4 months to complete the Taster Course and there is no tuition period extension. As far as Online classes are concerned, the tuition periods and extension fees policy is being developed and may be slightly different.

**The fees** listed below cover sending the course material in pdf format. If you would like to receive the course material in hard copy format, it can be printed off and sent to you by post. There is an extra charge of £10 for the Taster Course, and £25 for each of the modules in the Foundation and Diploma Courses. If you order the course material in pdf format only, it helps to have access to a printer so you can print it off. It can be difficult to absorb the information just on a screen.

**All module fees are in £ sterling.**

## **Foundation Course Fees**

### ***Module 1 – Building Blocks***

### ***Module 2 - Chart Interpretation, Ethics and Philosophy***

### ***Module 3 - Astronomy, an Introduction to History, and Chart Calculation***

**Module 2. Chart Interpretation, Ethics and Philosophy.** If this is the first time you have enrolled on a module with astrologycollege.com, and you would like to enrol on Module 2, and not Module 1, please answer the questions on the attached form called Astrology Experience Questions (file called “astrologyexperiencequestions”).

**Module 3. Part 3a. Astronomy and History.** You may know some of the astronomy relating to the Solar System or find it easy to absorb this information with less tuition. You can ask your tutor whether this is a suitable option for you; or if you have not enrolled on either Modules 1 or 2, you can contact the Director of the college (address details above). The reduced module fee does not apply to Part 3b, Chart Calculation.
